# Who We Are

As a full-service general contracting and design-build firm, Cambridge Construction Group LLC implements a service-oriented process management approach. With our vast industry expertise and focus on quality workmanship, we offer comprehensive services to include assistance with design-to-cost control, pre-construction, stakeholder collaboration, space delivery, occupancy administration and project closeout. We provide a full range of construction-related services aimed at meeting the objectives of all project stakeholders. Priority is placed on providing thorough collaboration with all team entities to include the respective department heads, the tenant/user groups, architects and engineers, building operations staff, and property management.

With more than 30 years of experience in the market, Cambridge Construction Group LLC maintains the knowledge and ability to leverage our relationships throughout the industry and work within each jurisdiction of the Washington D.C. Metropolitan Area. Since 2010, we have completed over 600 projects totaling in excess of 5M square feet, of which nearly 85% are tenant-related construction projects.

# Our Professional Services

## Pre-Construction

- Partake in programming interview sessions with stakeholders and user groups to provide insight regarding pricing, scheduling, design and process.
- Provide material availability and lead-times to incorporate into the project schedule.
- Perform site surveys of premises to become familiar with buildings and systems to identify conflicts for mitigation and resolution.
- Collaborate with the A&E team during pre-construction enabling CCG to provide real-time pricing feedback to ensure the most favorable pricing downstream.
- Coordinate tenant vendors including telephone/data cabling and furniture to ensure the successful integration of each into the overall construction schedule.
- Provide electrical and mechanical equipment surveys and perform pre-balance reports with the assistance of a mechanical contractor to assist the MEP Engineer to accurately design the HVAC.
- Provide detailed pricing notes and ensure accurate pricing via a comprehensive Solicitation and Bid Package for Subcontractors.
- Provide estimating and budgeting services.
- Provide coordinated review of construction drawings.
- Collaborate to ensure that the design criteria are clearly defined, and both the budget and the schedule are well communicated and successfully achieved.

# Our Professional Services

## Construction General Contracting

- Final price determination through comprehensive bid process
- Owner contract and subcontracts; preparation and execution
- Preparation and submission of monthly progress billings
- Construction milestone schedule implementation
- Change Order management (pricing, approval and tracking)
- Design change management (review, practical input, implementation and tracking)

## Construction Management

- Review of construction plans to ensure that they meet established building standards
- Obtain multiple bids for the work and collaborate with the Owner during the selection process
- Manage and supervise the construction process to ensure that the budget, schedule and workmanship are executed and achieved
- Review and approve progress billings of the general contractor
- Design build-to-cost control

# Our Professional Services

## Project Closeout

- Administer the issuance of a Certificate of Final Inspection allowing the Premises to qualify for an occupancy permit by the Tenant.
- Assist in obtaining occupancy permit.
- Provide testing, balancing and equipment commissioning for HVAC and other key systems in advance of tenant occupancy in order to ensure that all systems are functioning as intended.
- O&M documentation and warranties will be provided for the building engineering staff and to respective stakeholders for their records.
- Punch list execution and management.
- Assist with coordinating the Tenant's movers to ensure proper protection of the common areas and premises.
- Provide a detailed final billing and close-out for Tenant's review and approval including required lien waivers from all subcontractors, vendors and tradesmen.
- Commissioning as required.

# Select Testimonials

Cambridge Construction Group was great to work with. They kept us well-informed throughout the entire build-out process of our company's new DC office. The weekly construction meetings were very informative and helped keep us up-to-date with the progress of our new space. Having a group that was attentive to our wants and needs was ideal. The construction team went above and beyond to help get our office move-in ready! Our company is very happy with the way our new space turned out and it was a pleasure being able to work with the Cambridge Construction Group.

**-Annie Buckley | Padilla FoodMinds**

First, thank you for doing an amazing job on our project. With regard to our future projects, I would use your team again without a doubt. Your team is first on the list. Many thanks!

**-Colin Potts | ROSM**

Thank you so much for turning my vision into reality. I love my new second home and that's because of your hard work. I appreciate everything you did for me.

**-Isabel N. | Tenant**

# Select Testimonials

Cambridge Construction was the company that did the build-out at our second PT location. They were amazing in all aspects. They were very organized, stayed on top of weekly progress, communicated very well with us on a weekly basis through meetings and emails, were very understanding about last minute changes and most importantly stuck to the construction schedule even finishing ahead of the time line. We were so impressed by their work ethic and the quality of work was amazing. We would use them again for any other project in a heartbeat!

**-Angela Gordon PT, MPT, DSc | Co-Founder Advanced Kinetics Physical Therapy and Sports Performance**

We opened our McLean training center to students this week. The training center looks great and is off to a really good start. A lot of people will get the training they need to take their IT careers to the next level in this facility. Thank you for all your work in this long process.

**-Victor Torgrimson | Tech Data**

Thank You Brent, Dave, and everyone for getting us over the line! Hearty thanks to the Cambridge team!

**-Victor Torgrimson & Steven Watt | Tech Data**

# Select Testimonials

On behalf of E2Open, I can say that Brent, Larry and the entire CCG team did a fantastic job of finishing out our new Corporate Ridge office. Under extremely challenging circumstances of the last year of 2020, Brent worked effectively at getting all of the pieces of our project pulled together and moving forward. At times it was like herding cats, but he did it. Larry and the construction team turned over a fantastic looking space that captured the essence of our E2Open brand.

**-David Thomas | Director Corporate Real Estate & Facilities | E2Open**

The clear communication and quality of work provided by CCG allowed us to make several transactions work on very tight timelines. I wouldn't hesitate to involve CCG in any of my projects.

**-Tom Walsh | Director | Cushman and Wakefield**

Our experience with Cambridge was good. I appreciated the communication between yourself and Larry, always keeping me and our vendors in the loop and making modifications or trouble shooting when needed. The weekly calls were very helpful. Your meetings were very organized, which we appreciated! Thanks for everything!

**-Michelle Tomasetti | Executive Operating Administrator | Power Home Remodeling**

# Select Testimonials

On behalf of The SeaMarsh Group, Inc. (SMGi) I want to thank you and your team, especially Larry Redden, for your essential support in bringing our design/build project to a successful conclusion.

I also note with appreciation the transparency and collegial interactions you had with my design and implementation teams, as you collectively worked through the bid and selection process for subcontractors and vendors. Your recommendations and selections were first rate. Your willingness to adjust to our design changes, work order amendments, and the peculiarities of our specialty work requirements was, and is, much appreciated.

We are happy in our new space. We appreciate your fine efforts on our behalf and wish you and CCG all the best in everything you undertake for current and future clients. We suspect that they too will be impressed by the professionalism and care you shared with us.

# True Leadership

**Adam W. Pyles** is the Senior Vice President for Cambridge Construction Group and Cambridge Development Group LLC. He is a seasoned Project Executive who has successfully executed over \$500 million of commercial projects. Mr. Pyles pursues continuous cultivation of strategic value clients through customer-focused service, building relationships, developing trust and emphasizing a team approach. He directs all phases of the building process from project inception through design, permitting, construction and occupancy. He is responsible for overall administration of design and construction contracts, equipment purchases and coordination, schedule, and cost control. He also leads both the design and construction phases of the project to identify and address the Owner's needs and concerns. Mr. Pyles obtained a Bachelor of Science in Civil Engineering from the University of Cincinnati in 1991. He's currently affiliated with Associated Builders and Contractors (ABC), American Society of Healthcare Engineers and NC Hospital Engineers Association. Mr. Pyles is also certified in OSHA 30 HR, ASHE, Life Safety 101 and First Responder.

# True Leadership

**Katherine C. Freehof** is a Vice President of Cambridge Holdings LLC. Ms. Freehof is responsible for business development of the company's construction, property management, and leasing divisions. She is also involved with leasing over 3 million square feet of office, flex, and industrial properties on behalf of landlords throughout the D.C. Metro area.

Ms. Freehof returned to Cambridge Holdings LLC from Newmark Knight Frank's Las Vegas office where she worked with the Crooks/TabEEK team and represented office tenants and landlords throughout the valley. Prior to Newmark Knight Frank, Ms. Freehof was an Associate Vice President at Cambridge Property Group LLC, the leasing subsidiary of Cambridge Holdings LLC, where she specialized in landlord representation, with projects totaling more than 2.5 million square feet. Throughout her commercial real estate career, Ms. Freehof has been involved in over 1.5 million square feet of lease transactions with a total lease value of more than \$150 million. Ms. Freehof's varied background also includes media relations, corporate reputation management, and brand-building campaigns for financial organizations and real estate companies.

Ms. Freehof obtained her Master of Business Administration from the Crummer Graduate School of Business and a Bachelor of Arts in Environmental Studies from Rollins College. She is a member of the National Association of Industrial and Office Properties (NAIOP Northern Virginia Chapter), Commercial Real Estate Women (CREW Northern Virginia Chapter), the Commercial Real Estate Brokerage Association (CREBA), and the International Council of Shopping Centers (ICSC).

# True Leadership

**Brent Emory** is a Senior Project Manager with Cambridge Construction Group LLC, the construction services division at Cambridge Holdings LLC. Mr. Emory has more than 28 years of experience managing the commercial and multi-family residential construction process in the Washington, D.C. Metro area. He has managed commercial and multi-dwelling unit construction projects, project teams and design-build projects in support of customers, both in the private and public sectors.

Mr. Emory's diverse background includes a 242-unit condo and club construction project which was a combination pedestal, four and five story stick-built with two-story concrete clubhouse, pool and 300+ unit precast parking deck. The project included wetlands and storm water retention as well as community park proffers.

Mr. Emory's project and construction management expertise includes design-to-cost control/collaboration, scheduling and lead time mitigation, corporate headquarters consolidation and expansion, tenant relocation and coordination, phased construction planning and sequencing, conflict identification and resolution, IT infrastructure coordination, inspections, commissioning and close-out administration.

Mr. Emory graduated from James Madison University with a B.A. in Business Administration and Economics.

# True Leadership

**Brian Lowe** is a Project Manager with Cambridge Construction Group LLC. Mr. Lowe is involved in Cambridge Construction Group LLC's innovative construction process from budget management, trade coordination, and business relations to contract negotiations, project estimating, schedule development, information tracking, document preparation, building codes, and OSHA safety standards.

Mr. Lowe has close to 20 years of construction management expertise which includes 10 years of experience managing the commercial construction process in the Washington, D.C. Metro area and another 8 years managing Federal construction projects nationwide. Utilizing his multi-faceted background, Mr. Lowe has been a valuable asset to Cambridge Construction Group LLC, maximizing productivity and efficiency with every project from initial design to close-out.

Mr. Lowe graduated from ECPI University with a Bachelor of Science.

# True Leadership

**Sandra L. Carey** is the Estimator at Cambridge Construction Group LLC. She is responsible for the analysis of blueprints, specifications, proposals, and other documentation to prepare time, cost and labor estimates for projects and services at Cambridge Construction Group LLC.

Ms. Carey has over 30 years of experience in the construction industry beginning in residential construction as an Accounting Coordinator for Pulte Homes. She worked in the residential sector for approximately 13 years and then transitioned to commercial construction after over 7 years as a Senior Project Coordinator at Toll Brothers. She started her commercial career at Scott-Long Construction as a Project Engineer. She worked there for 18 years where she grew from Project Engineer to Preconstruction Coordinator and finally to Estimator, where she has spent the last five years. With Ms. Carey's enduring experience in the industry comes her longstanding relationships with Subcontractors, Owners, and Architects making her an asset to Cambridge Construction Group LLC.
